

NEET ORGANIC CHEMISTRY – SOME BASIC PRINCIPLES AND TECHNIQUES — RESONANCE EFFECT — PYQS

Max. Marks: 8
Questions: 2

Section A (MCQ) — 2 questions

are

[AIPMT 2002]

- (1) resonating structures (2) tautomers
 (3) geometrical isomers (4) optical isomers

 Scan or tap for the
full solution

Q.2 Polarisation in acrolein can be described as

[AIPMT 2000]

- (1) $\overset{+\delta}{\text{CH}_2}=\overset{+\delta}{\text{CH}}-\text{CHO}$ (2) $\overset{-\delta}{\text{CH}_2}=\overset{+\delta}{\text{CH}}-\text{CHO}$
 (3) $\overset{-\delta}{\text{CH}_2}=\overset{+\delta}{\text{CH}}-\text{CHO}$ (4) $\overset{+\delta}{\text{CH}_2}=\overset{-\delta}{\text{CH}}-\text{CHO}$
