

NEET ELECTROSTATIC POTENTIAL AND CAPACITANCE —  
DIELECTRICS AND POLARISATION — PYQS

Max. Marks: 4

Questions: 1

## Section A (MCQ) — 1 question

Q.1 Polar molecules are the molecules :

[NEET (UG) 2021]

- (1) having a permanent electric dipole moment
- (2) having zero dipole moment
- (3) acquire a dipole moment only in the presence of electric field due to displacement of charges
- (4) acquire a dipole moment only when magnetic field is absent
